

Front-end Software Developer

Barcelona, Spain (Full-time)

JobID – FSD-2023

ZYMVOL® is a biotech company specialized in the design, development, and application of molecular modeling software in the discovery and development of new industrial enzymes.

We are looking for a dynamic and motivated individual for a position as a **front-end software developer** reporting directly to the Chief Technology Officer.

What you can expect working at ZYMVOL®:

Environment – We are a small but very motivated team. You'll be working in a fast-growing company with great potential to advance personally and professionally.

Attractive economic conditions – Compensation will depend on previous experience but competitive conditions are available. Medical insurance is included. Permanent term contract after one-year trial. Possibility of remote working.

Equal opportunity employer – All aspects of employment including the decision to hire, promote, discipline, or discharge, will be based on merit, competence, performance, and business needs.

Required Qualifications:

- **Experience:** 2-3 years as a Front-end Developer with a demonstrable track record.
- **Core Web Technologies:** Proficient in HTML5, CSS, and JavaScript/TypeScript.
- **Frameworks:** Solid experience with React, Next.js, and/or Angular.
- **Back-End Skills:** Proficiency in Python, comfortable with database technologies.
- **Development Best Practices:** Familiarity with software best practices, including version control, testing, and CI/CD.

- **Analytical Skills:** Critical thinker with proven problem-solving capabilities.
- **Team Collaboration:** Exceptional interpersonal skills with a team-first approach.
- **Language Skills:** Fluent in English, both written and spoken. Working proficiency in Spanish.
- **Time Management:** Ability to prioritize and manage tasks efficiently.

Desired Qualifications:

- **Back-End Expertise:** Experience in back-end development, SQL, and NoSQL, in order to ensure easy communication between front-end and back-end teams.

Responsibilities:

- **Design & Implementation:** Lead the design and coding of our SaaS platform's front-end, ensuring an optimal user experience.
- **Team Collaboration:** Work with researchers, marketers, developers, and data scientists to align design with goals.
- **Back-End Integration:** Ensure smooth integration with our back-end systems.
- **Quality Reports:** Deliver regular reports on software quality metrics.
- **ISO Standards:** Uphold ISO compliance in development methodologies and documentation.

Application

To apply for this position, please send your CV along with a cover letter to careers@zymvol.com by October 30th, 2023.

Please include the **JOBID “FSD-2023”** in the subject.
